

## CONTENTS VOL I.

### NUMBER 1.

R. G. BUSCHMAN	: Integral equations and Laplace transformations.	... 1
B. R. BHONSLE AND D. B. MULEY	: An integral equation involving classical orthogonal polynomials.	... 5
J. N. KAPUR	: Moments for some general birth and death processes.	... 10
L. B. THAKUR	: On some properties of integrodifferential equations.	... 18
V. M. BHISE AND MADHAVI DIGHE	: Tauberian theorems for a Fourier-type integral operator-I.	... 25
N. C. DAS AND S. K. BHATTACHARGEE	: Magneto-thermo-viscoelastic vibrations of a ferromagnetic plate in a magnetic field.	... 33
C. L. PARIHAR AND V. C. PATEL	: On modified Jacobi polynomials.	... 41

### NUMBER 2.

HAROLD EXTON	: A Basic Legendre Equation.	... 1
S. P. CHHABRA AND B. K. JOSHI	: On integral equations involving Whittaker functions.	... 6
P. K. SHARMA	: Divisibility and Injectivity.	... 9
V. L. DESHPANDE	: Partial derivatives of Hypergeometric functions of two variables.	... 11
A. K. PAL AND D. K. SINHA	: On interactions in an infinite thermo-piezo-electric medium due to piezo-electric and heat sources.	... 17
S. N. MURTHY	: Cooling of a large elastic plate in a magnetic field.	... 24
V. K. VARMA	: Solution of integral equations with hypergeometric functions as kernels.	... 30
M. N. PUNTAMBEKAR	: Fibonacci related Differentials.	... 33
K. SAROJINI	: Some theorems on integral operators based on distribution functions and Marcinkiewicz-Zygmund Interpolation theorem.	... 35
C. K. DAVE	: Another generalisation of Gegenbauer polynomial.	... 42
