

CONTENTS

Vol. 10, No. 1 (1988)

28-11-88

S. C. Gupta and B. M. Agrawal	K-th Differences of functions satisfying three-term recursion relation.	1
P. Choudhury	On thermal crack on the curved surface of a long cylinder of transversely isotropic material.	10
Snigdha Banerjee	Torsional vibration of a composite truncated conical bar made of two different types of non-homogeneous spherically aeolotropic materials.	19
S. N. Maheshwari and R. K. Tiwari	On almost H-Pairwise continuity.	26
Rajni Gupta	Fractional integral operators and a general class of polynomials.	32
D. C. Sanyal and S. K. Samanta	Steady hydromagnetic flow through a porous medium bounded by two porous concentric circular cylinders.	38
L. J. Kawade and M. S. Choudhary	On distributional Laplace-Hankel transformation and its application.	43

Vol. 10 No. 2 (1988)

23-12-88

S. K. Bohare	Generalization of some fixed point theorem of ciric.	53
Aloke Kumar Ray, Swapan Kumar Sen and Sukumar Lahiri	Fluctuating flow of rivlin-ericksen fluid past an impulsively started infinite flat plate with variable suction.	56
S. N. Maheshwari and R. K. Tiwari	A note on weak pairwise continuity,	61
R. T. Denis	On certain summation formulas for terminating double basic hypergeometric functions.	64
Prem Chandra and Varsha Kshirsagar	A necessary and sufficient condition for an aspect of the local property of the absolute summability of fourier series.	68
P. A. Patil and M. S. Chaudhary	On the spaces of type $T(\lambda, \mu)$ and their Mellin, Watson and Hankel transforms.	75
D. C. Sanyal and B. P. Jash	Magneto shear flow past a cylinder with cross-section in the form of a limaçon.	87
S. K. Dabadghao and B. K. Joshi	Analysis of stress waves in an infinite thermo-piezo-electric medium.	93
R. N. Jain	Some summation formulae for ${}_pF_q(1)$.	100
