

CONTENTS

Vol. 11, No. 1 (1989)

Razina Ferdausi and Ashok Saxena	On Uniform Norlund summability of successive derived Fourier and derived conjugate series	1
K. C. Gupta and S. M. Agrawal	On chains involving G-function transforms	9
Charles Dorsett	Feebly open sets and feeble properties	17
A.K. Roy, S.K. Sen and S. Lahiri	Magner-shear flow past a cylinder formed by two arcs of confocal parabolas	27
Brij Bhan Singh, A. K. Singh and Anil Kumar	Asymptotic behaviour of the flow near a rotating disk	35
M. R. Singh	Results on Continuous Mappings and fixed points in a 2-metric space using two metrics	39
K. C. Dimri	General fixed point theorems in Menger spaces	45
K. Qureshi and R. K. Pande	A fixed point theorem	49
S. D. Bajpai and A. Y. Al-hawaj	Special functions and time-domain synthesis problem	52
K. J. Jaiswal	Pressure distribution at finger tips in a certain problem of Groundwater Replenishment in Heterogeneous medium	60

Vol. 11, No. 2 (1989)

R. K. Jain and Rajendra Jain	A Result on points for Orbitally Continuous Mappings	67
Aloke Kumar Roy, Swapan Sen and S. Lahiri	A Note on the Unsteady Motion of Stratified Viscous Fluid between two Parallel Plates	72
P. A. Patil and M. S. Choudhary	On the Spaces of Type $T(\lambda, \mu)$ and the Product Convolution	76
P. K. Mittal and P. K. Shukla	On Some Self-Superposable Fluid Motions in Prolate Spheroidal Ducts	86
P. N. Shrivastava and S. S. Dhillan	Lie Theory and Hypergeometric Function ${}_2F_1[a+n, b; c+n; z]$	93
B. S. Tuteja	Common Fixed Point Theorems of Commuting Mappings in Probabilistic Metric and Uniform Spaces	99
Vijay Gupta and P. N. Agarwal	Linear Combinations of Philips Operators	106
Charles Dorsett	A Note on Feebly Regular and Feebly Normal Spaces	115
Herold Extan	Series of Bessel Functions	117
Chhaya Sharma and C. L. Parihar	Hypergeometric Functions of Variables (1)	121
