

CONTENTS

VOL. 8, NUMBER-1

A. P. SINGH AND A. A. MUDALGI	: Deficient values of meromorphic functions.	1
P. CHOWDHURY AND BIBEKJYOTI CHAKRAVORTI	: Stresses around a penny shaped crack in a semi-infinite intially stressed isotropic material.	7
BIMALENDU DAS	: Two dimensional thermoelastic stresses due to a periodic suply of heat on the straight edge of a semi-infinite plate of aelotropic materials	17
B. C. DHAGE AND V. V. DHOBALÉ	: On generalisation of Maia's fixed point theorem.	25
S. K. SINGH	: Relative metrical Finsler connections with torsion.	31
H. K. PATHAK	: Fixed point theorem in Banach space for three mutually commuting mappings.	44
ASHOK GANGULY	: Fixed point theorem under starshapedness condition.	47
M. S. PATHAK AND S. GHOSH	: Some aspects of acoustohelicon waves in magnetised semiconducting plasmas.	49
TAPASENDRA BASU	: Some fixed point theorems for multivalued mappings using Caristi and Kirk type condition.	58
R. K. JAIN AND ASHOK GANGULY	: On the strong Perron summability of Fourier series and its conjugate series.	64

VOL. 8, NUMBER-2

ASHOK GANGULY	: An application of a fixed point theorem to approximation theory.	69
J. A. KHAN	: On an integral transform of two variables.	71
N. V. DESHPANDE AND P. P. KALE	: A note on K^λ -summability of Fourier series.	78
ASHISH KAR AND PARITOSH BHATTACHARYA	: Weakly semi-continuous functions.	83
M. S. PATHAK AND S. GHOSH	: Some aspects of acoustic wave propogation in semiconducting plasmas.	94
D. C. SANYAL AND J. N. SINGH	: A note on the deformation of a poroelastic layer.	102
HAROLD EXTON	: A generalisation and the Weber Schafheitlin integral, a new orthogonality relation and generalised Neumann series.	109
M. K. SANYAL AND D. C. SANYAL	: Effect of radiation on hydromagnetic convection in a moving conducting channel.	115
