CONTENTS

Vol. 12, No. 1 (1990)

B. R. Ahirrao and S. V. More	An inversion formula for the distributional Laplace-Hardy transformation.	1
M. K. Pathak and A. R. Maity	Fixed point theorems in 2-metric spaces.	17
U. D. Tapi	Feebly open sets and some new separation axioms.	25
Sadhana Mishra	Integrals involving exponential function, generalized hypergeometric series and Fox's H-Function, and Fourier series for products of generalized hypergeometric functions.	33
P. K. Majumdar	Some properties of cantor's ternary set.	48
Anand P. Singh and Prakash M. Patil	Relative defects for monomials.	53
S. R. Kulkarni	Span of the index parameter of some univalent functions.	64
A. K. Roy, Swapan Sen and S. Lahiri	Magneto shear flow past a projection in the form of a spiral.	71
Lal Bahadur and D. C. Soni	Metric projections 'π' and 'q'.	78
Ashok Kumar	Effect of suction on oscillatory flow past an infinite vertical porous plate with mass transfer.	82
S. C. Gupta and B. M. Agrawal	Dirichlet averages and fractional derivatives.	103

CONTENTS

Vol. 12, No. 2 (1990)

D. C. Sanyal and M. K. Sanyal	On Convecting Moving Horizontal Channel Flow	117
S. C. Bhatnagar	On De La Valee-Poussin Summability of a Series of Orthogonal Polynomials	125
S. P. Malgonde and R. K. Saxena	A Generalization of Erdelyi-Kober Operators of Generalized Functions	129
Harold Exton	Series of Bessel Polynomials	142
U. C. De	On Semi-Decomposable Pseudo-Symmetric Riemannian Spaces	149
S. Khan	Fixed Point Theorem for Densifying Mapping	153
K. K. Dube. R. K. Tiwari and O. S. Panwar	A Note on Pairwise K-Continuous Mapping	156
S. K. Roy Chowdhury and B. Das	Unsteady Flow of an Electrically Conducting Dusty Viscous Fluid Through a Channel with Variable Pressure Gradient	163
S. D. Bajpai	Some Results Involving Meijer's G-Function and a New Orthogonal Combination of Confluent Hypergeometric Functions	170
G. P. Surve and G. G. Asgekar	Ricci Conformal Collineations and Infinitely Conducting Charged Anisotropic Fluid in General Relativity	174
Bimalendu Das	Three Dimensional Thermoelastic Stresses Due to a Periodic Supply of Heat in a Semi-Infinite Aelotropic Elastic Medium	189
B. B. Sinha and R.K. Yadav	On Generalised Finsler Structures on Vector Bundle	200
K. K. Jha, P. K. Sharan and S. K. Mishra	On Topological Tensor Products of (Countably) Barrelled Spaces	209
