CONTENTS

Vol. 22, No. 1 (2000)

G. R. Labde and P. C. Wankhede	A Transient Problem of Generalised Thermoelasticity in an Infinite Rod	1
M. C. Mukherjee	A Note on a Paper of Barik	17
G. P. Surve	Inertial Reference Frame and the Space-time of Perfect Magnetofluid	31
Anjali Srivastava	On Singular Compactification of an Orbit Space	45
R. B. Patel	Second Order Symmetric Duality for Multiobjective Nonlinear Programs	51
Sanjay Jain	Most General Queueing Network Model	71
D. C. Sanyal and N. K. Maji	Micropolar Fluid Model for Blood Flow in a Branched Artery	79
T. M. Karade and K. T. Thomas	Symmetric Character Tensor $K_{\alpha\beta}$ for the Space Time V_4	95
R. G. Buschman	Reduction of Recurrences for Hypergeometric Functions	107
H. Exton	On the Double Hypergeometric Function H_1. II	117
I. H. Nagaraja Rao & Sree Rama Murty	Fixed Point Theorems—R-Rotativity	125
P. Sankara Reddy, S. Sreenadh and P. V. Arunachalam	Bingham Fluid Flow in an Inclined Channel Boundary by two Permeable Beds	143
H. S. Chakraborty, A. K. Sengupta and Kousik Ghosh	Approximate Solution of a One-Dimensional Coupled Thermo-Elastic Problem	163
Jyotsna Joshi & C. L. Parihar	On some Summation Formula for ${}_p\phi_q(1)$	173
Muhammed I. Syam, Hani I. Siyyam and Qasem M. Al-Mdallal	Spectral Method for Solving Initial Boundary Value Problems	181
H. Exton	A New Transformation Formula with Special Values of the Parameters for Double Hypergeometric Functions	195

CONTENTS

Vol. 22, No. 2 (2000)

Ljubomir B. Ćirić and Marina M. Milovanović -Arandelović	Common Fixed Point Theorem for R-weak Commuting Mappings in Menger Spaces	199
Anjali Srivastava	On Homotopic Extension of Homotopic Maps	211
Asit Baran Majumdar	On Mixed Trilateral Generating Relation	217
R. B. Patel	Second Order Duality with Generalized Convexity	225
Kamel Al-Khaled	Asymptotic Behavior of the Solutions of the Nonlinear Advection–Diffusion Equation	239
B. G. Kore and L. B. Thakur	A New Method for Obtaining Optimal Solution of Unbalanced Transportation Problem	247
S. P. Malgonde and G. S. Gaikawad	A Mixed Parseval Equation and the Generalized Hankel Type Transformations	259
H. Exton	On The Differential Equations Associated with Srivastava's Triple Hypergeometric Function H_C	277
Arvind Maharshi and S. S. Tak	Fluctuating Free Convection through Porous MediumDue to Infinite Vertical Plate with Constant Heat Flux	293
R. K. Saxena and Jeta Ram	Certain Results on Wright's Generalized Hypergeometric Functions with Applications	303
A. A. Salama	Second-order Schemes for Singularly Perturbed Volterra Integrro-differential Equations	315
G. Viswanatha Reddy, S. Sreenadh and P. V. Arunachalam	Power-law Fluid Flow through a Tapered Tube with Permeable Wall	329
H. S. Chakraborty, A. K. Sengupta and Kousik Ghosh	Torsional Vibration of Semi-infinite Non-homogeneous Elastic Medium	341
Yusuf Beceren	On Semi α-Irresolute Functions	353
