CONTENTS

Vol. 23, No. 1 (2001)

N. C. Das and A. Lahiri	Dynamic Thermal Stresses in an Orthotropic Elastic Slab due to Prescribed Surface Temperatures	1
Shama Parveen and P.H. Bhathawala	Analytic Study of three Phase Flow through Porous Media	17
R. D. Giri & K. L. Sarda	Semaphore Codes	25
V. H. Bajaj	On Homogeneous Linear Difference Equation	35
S. S. Srivastava	Solvable Potential for the Quadratic Transform Form of Hypergeometric Differential Equation	41
S. B. Joshi	On A Class of Starlike Functions	47
G. C. Saha, K. K. Kundu and N. De	Mechanical Responses in a Rigidly Backed Composite Piezoelectric Quartz Plate Transducer under Electrical Excitation	57
S. S. Pujar	On contact non-metric φ-Connection in Sasakian Space	71
N. R. Mangalambal	On Maximal E-Compactification	83
Hani I. Siyyam	The Modified Simpson's Rule for Line Integrals	99
P. K. Banerji and Gamal M. Shenan	On an Investigation of Certain Class of Starlike and Convex Functions in Terms of Generalized Fractional Integral Operators	109
Rateb Al-Btoush	Solution of the Telegraph Equation	120
R. K. Yadav and Sunita Vyas	Certain Transformations of Basic Hypergeometric Functions of Three Variables	127
H. Exton	On the Quantum Interaction of the Inverse Sixth Degree	139

CONTENTS

Vol. 23, No. 2 (2001)

S. S. Pujar	Isometry and Conformality of a Real Kaehlerian Manifolds to Spheres	149
P. K. Banerji and Deshna Loonker	Conditional Theorems for the Validity of Distributions of Slow Growth	161
R. K. Kumbhat and Arif M. Khan	Convolution of an Integral Equation with the *I*-function as it's Kernel	173
Sanjay Tripathi and N. V. Patel	On some Summability Factors of Infinite Series	187
N. Palaniappan	Regular Generalized Star Open and Generalized Star Regular Open Sets in Topology	197
M. G. Tandale and S. V. More	On Inversion of Laplace-Marchi-Zgrablich Integral Transformation of Generalized Functions	205
P. H. Bhathawala and P. R. Patel	Finite Difference Method of Instability Phenomenon in Porous Media with Mean Capillary Pressure	235
R. B. Patel	Optimality and Duality for Multiobjective Fractional Programming involving Nonsmooth *B*-invex Functions	249
Farkhunda Sayyed and V. H. Badshah	Generalized Contraction and Common Fixed Point Theorem in Hilbert Space	267
N. Gopal Reddy and B. Krishna Reddy	A note on Generalized Self-adjoint Operator and Factorization of Operator Valued Function	277
M. N. Mehta and Arati Swaroop	Variational Finite Element Approach to the Problem of Seepage in Two Layered Soil with an Inclined Boundary	283
N. B. Desai and M. N. Mehta	A Composite Expansion Solution of One Dimensional Flow in Slighty Saturated Porous Media	297
H. T. Dindeand G. G. Asgekar	Conharmonic Conformal Motion Concomitant with the Relativistic Ferrofluid	303
T. K. Mukhopadhyay	Mechanical Responses in a Free Piezoelectric Plate Subjected to a Impulsive Voltage Input	313
G. Viswanatha Reddy, S. Sreenadh and P. V. Arunachalam	Bingham Fluid Flow in an Annulus	319
D. K. Panchal, R. K. Saxena and C. L. Parihar	Abelian Theorems related to Generalized Hankel Transform	343
	Book Reviews	357
