CONTENTS

Vol. 24, No. 1 (2002)

D. C. Joshi	Some Properties of a New Class of Polynomials $q_n(x)$	1
R. B. Patel	Optimality & Duality in Nondifferentiable Multiobjective Fractional Programming Involving *D*-type *I* Functions	7
B. A. Uralegaddi and A. R. Desai	Integrals of Meromorphic Starlike Functions with Positive and Fixed Second Coefficients	27
H. R. Kataria and M. N. Mehta	An Infinite Series Solution of Double Phase Flow Due to Differential Wettability	37
Rohit Kumar Gehlot and S. S. Tak	Steady Free Convection Flow along a Semi-infinite Vertical Plate in Presence of Uniform Transverse Magnetic Field	45
M. G. Tandale and S. V. More	Representation and Abelian Theorems for Laplace-Marchi-Zgrablich Integral Transformable Generalized Functions	53
Pankaj Singh, Vivek V. Raich, N.P.S. Bawa & Praveen K. Shrivastava	Fixed Point Theorem in a Bi-Quasi Metric Space	69
R. Aghalary and S. R. Kulkarni	Some Theorems on Univalent Functions	81
H. S. P. Shrivastava	On Hermite Polynomials of Several Variables	95
R. K. Saraf	Semi-closure in a Fuzzy Bitopological Space	107
K. S. Rao, R. Y. Denis & S. N. Singh	On Certain Continued Fractions involving Hypergeometric Functions with General Arguments	115
S. K. Nayak	Bounded Nonoscillation of Second Order Nonlinear Nonhomogeneous Functional Differential Equations	123
Ameen J. Alawneh & Basel M. Al-Eideh	Generalized Likelihood Ratio Test of a Specific Transition Probabilities in Ergodic Markov Chains	131
B. D. Pant	Relation Between Fixed Points in Menger Spaces	135
Y. R. Badwaik and S. V. More	On Distributional Second Modified Marchi-Zgrablich Integral Transform	143
B. N. Bhosale and M. S. Chaudhary	Fourier-Hankel Transform of Distributions of Compact Support	169
Prasanna Kumar	On the Local Mean Value Theorem for Analytic Functions	191
S. R. Kulkarni and Sou. S. S. Joshi	On a Subclass of Meromorphic Univalent Functions with Positive Coefficients	197
K. C. Deshmukh	Alternative Solution of a Transient Heat Conduction in a Thin Circular Plate	207
K. Wadhwa & R. Tokse	On Variational Like Inequality Problem	215
S. Lakshmi and M. S. Ganesan	A Mathematical Model in Physiological Behavioral Science	221
	Book Review	233

CONTENTS

Vol. 24, No. 2 (2002)

G. Thangaraj and G. Balasubramanian	On Somewhat Fuzzy β-continuous Functions	241
M. Bhujanga Rao and D. Rama Murthy	Propagation of Elastic Waves in an Infinite Micropolar Elastic solid With A Cylindrical Bore	253
D. V. Shah	An Asymptotic Formula in Partitions	263
Pragna S. Kantawala	On The Summability of Double Orthonormal Series	273
P. P. Kale and Ms. Shefalika Chand	Relativistic Jacobi Polynomials	283
Basel M. Al-Eideh	The Population Moments of a Birth-death Diffusion Process with Immigration and Beta Constant Catastrophe Rate	299
U. K. Misra and N. C. Sahoo	Abosolute Banach Summability of the Conjugate Series of a Fourier Series	307
R. K. Saxena, R. K. Yadav and Sunita Vyas	Certain Transformations of Abnormal type of q-series of Three Variables	319
T. Chitrakalarani & M. S. Ganesan	Stochastic Model for Controlling the Grade Sizes	327
R. M. Patel and G. M. Deheri	Analysis of the Behavior of the Squeeze Film between Curved Plates	333
Ashok Kumar, Balbir Chand and V. P. Kaushik	On Unsteady Oscillatory Laminar Free Convection Flow of an Electrically Conducting Fluid through a Porous Medium along a Porous Hot Vertical Plate with Time Dependent Suction in the Presence of Heat Source/Sink	339
P. K. Banerji and Gamal M. Shenan	Convolutions of Certain Classes of Analytic and Multivalent Functions in Terms of Fractional Differintegrals	355
D. C. Sanyal and Mrinmayee Dutta	On Extensions of Caccioppoli's Fixed Point Theorem	371
Ritu Shrivastava	Linear Generating Relations Involving the H-function of Two Variables	381
R. G. Buschman	Averages of Arithmetic Functions	387
S. S. Bhati and Mennakshi Purohit	Certain Expansions associated with Hypergeometric Functions of Four Variables	385
Nirmala Gupta and V. H. Badshah	Fixed Point Theorem of Weak** Commuting Mappings	403
R. K. Kumbhat and Yogesh Sharma	Inversion Formula for Convolution Type Fractional Integral Operator of Matrix Variable	413
R. K. Saxena, J. Ram & (Ms) A. R. Chauhan	Decomposition Structure of Generalized Hypergeometric transformation of Matrix Argument	421
	Book Review	435
