CONTENTS

Vol. 26, No. 1 (2004)

N. W. Khobragade andP. C. Wankhede	An Inverse Steady-state Problem of Thermoelastic Deformation of A Finite Length Hollow Cylinder-III	1
Sanjay Jain and Adarsh Mangal	Solution of A Generalized Fractional Programming Problem	15
Devbhadra V. Shah	An Exact Formula for $p_6(n)$	23
V. Ravichandran	Functions Starlike with Respect to N-ply Symmetric, Conjugate and Symmetric Conjugate Points	35
S. M. Khairnar and S. R. Kulkarni	A Subclass of Harmonic Starlike Functions with Negative Coefficients	47
Nayna Pawar and B. K. Joshi	A Note on Modified Logistic Law of Population Growth and Decay	63
Alok Kr. Sengupta and Tapas Kanti Majumdar	Approximate Solution of A Coupled Thermo-elastic Problem in A Non-simple Medium	67
S. D. Deo	Nil Contribution of Cosmic Strings to Plane Symmetric Space-time in Bimetric Relativity	77
Himanshu Pandey, Arvind Kumar Yadav & Mithilesh Chandra Mishra	Inflated Probability Model for the Number of Out-migrants	81
B. P. Reddy	Inversion Formula for the Distributional Finite Hankel-sine Transformation	87
Remy Y. Denis, S. N. Singh and S. Ahmad Ali	Transformations of Mock Theta Functions Found in the "Lost" Notebook	95
P. R. Sharma, Y. N. Gaur and R. P. Sharma	Unsteady Mhd Flow and Heat Transfer Over A Continuous Porous Moving Horizontal Surface in the Presence of an Oscillating Free Stream and Heat Source	105
K. C. Sarangi and C. B. Jose	Unsteady Mhd Free Convective Flow and Mass Transfer Through Porous Medium with Constant Suction and Constant Heat Flux	115
M. S. Borkar	The Characteristic Quantities of Robertson-walker Metric	127
G. L. Waghmare and S. V. More	On Finite Symmetric Trilinear Integral Transform of Distributions	137
K. S. Adhao, H. R. Ghate, G. S. Khadekar and Gopal Kondawar	Exact Solutions of the Field Equations In Higher Dimensional Bimetric Theory of Relativity	167
Joy Jacob, K. K. Jose and A. M. Mathai	Some Properties of Real Matrix-Variate Inverted Generalized Dirichlet Integrals	175
Jay M. Jahangiri, G. Murugusundaramoorthy and K. Vijaya	Starlikeness of Harmonic Functions Defined by Ruscheweyh Derivatives	191
Kamal Wadhwa and Rajesh Tokse	Non-linear Variational Like Inequality Problem	201
Pon. Sundaram and V. Sadhasivam	On Forced First Order Neutral Difference Equations with Positive and Negative Coefficients	211
Monty J. Strauss C. S. Arvinda	Book Review	229

CONTENTS

Vol. 26, No. 2 (2004)

R. Narayanan	Matrix Properties of the Most Generalized Fibonacci Sequences	233
M. R. Tailor & M. N. Mehta	An Analytical Solution of Fingering Phenomenon Arising in Fluid Flow through Porous Media by Using Similarity Technique	245
T. Singh and Bhavana Soni	Error Bound by Borel Means in Hölder Metric	255
R. K. Pardasani & Madhvi Shakya	Application of Similarity Transformation to Unsteady State Heat Flow Problem in Peripheral Tissues of Cylindrical Human Organs	265
P. N. Gupta and Lalit Rankawat	An EOQ Model for Linear deterioration Rate and Stock-Dependent Rate of Consumption with Permissible Delay in Payments	273
M. N. Gaikwad & K. C. Deshmukh	Thermoelastic Deformation of a Circular Plate Due to Partially Distributed Heat Supply	285
Devbhadra V. Shah	Pellian Triplets	297
R. R. Sharma, Seema Chawla & Ranjeet Singh	Steady Laminar MHD Flow and Heat Transfer Through Inclined Porous Channel : Lower Surface Bounded by Porous Medium	313
M. S. Rathore, Deepak Singh & Naval Singh	Common Fixed Point Theorems Using Compatible Maps in D-metric Spaces	323
M. Chakraborty	Propagation of Love Waves in an Inhomogeneous Irregular Crustal Layer	337
Sanjib Kumar Datta	Composite Meromorphic and Entire Functions and their Growth Properties	351
C. Sulochana, D.R.V. Prasada Rao and D.V. Krishna	Finite Element Analysis of Heat and Mass Transfer Through A Porous Medium in A Vertical Channel	365
Marzieh Ghaedi & S. R. Kulkarni	New Subclass of Meromorphic Starlike, Convex and Close-TO-Convex Functions	389
G. S. Khadekar & Mohan Gaikwad	Cosmological Models in the Five-Dimensional Space-time-mass Bimetric Theory of Gravitation	407
S. Lakshmi	Stochastic Model for Stress Effects of Homeostatic Systems	411
Prasanna Kumar and B. G. Shenoy	A Note on the Critical Points of A Polynomial	419
M. N. Gopalan	Expected Number Analysis of A Two-stage Production System with two Parallel Machines in the First Stage	425
D. K. Wagh, Swasti Wagh and Jitendra Binwal	A Stochastic Approach to Study Brownian Motion of Magnetic Particles When Ferrofluid is Subjected to Magnetic Field Gradient	435
Indrajit Lahiri D. P. Mourya	Book Review	441
Index	Vol. 26, Nos. 1 & 2 (2004)	(i)
